Parking lot access from Hudson Street (2 blocks east of Granville Street)

---

## HISTORY OF THE PROGRAM

Little League Canada is introducing a new and unique instructional program and resources for the purpose of helping managers and coaches teach our children baseball. Along with the instructional program, “**Teaching for Tomorrow**”, there are manuals and DVDS available.

The **Learning the Game** program for ages 4, 5, and 6 is broken down into 6 Innings of 80 to 90 minute practice plans with a step-by-step approach with fun activities from start to finish. Drills will be focused on the five skills necessary for the kids to learn the game. The **Playing the Game** program for ages 7 through 12 consists of 6 Innings of 90 minute practice plans along with 3 Extra Innings. A step-by-step organization of each practice from start to finish, how to teach the fundamentals of ten skills along with appropriate drills, how to work with players and parents and finally, how to use baseball for teaching our children to be fine citizens of tomorrow.

Little League Canada is launching this nation-wide initiative to every district, league and team in Canada for the 2010 season. Give your coaches and managers an opportunity to learn and improve their coaching skills. **Coaches and managers may attend one or both sessions.** Bring your glove, comfortable clothing, sneakers and let's have some fun!!!

*Al Herback*

Little League Canada National Coach
